A CURATED

Festive Season

Celebrate the New Year the Aliée way.

Four days of curated experiences,
from sunrise rituals to after-hours beats.

At Aliée, every season is an invitation to celebrate life with curiosity, beauty, and connection. Rooted in Istanbul's heritage yet shaped by a contemporary spirit, Aliée is a house where art, gastronomy, and well-being come together in dialogue.

The festive season embodies this philosophy in its most joyful form: moments curated to be shared, from soulful dinners and live performances to wellness rituals and cultural discoveries. Whether through golden hours on the Golden Horn, gatherings at Little House, or nights alive at Mondaine, Aliée transforms celebration into an art of living.

Here, the festive spirit is not only about the occasion, but about the stories created—timeless, personal, and alive.
